

# CARBON FOOTPRINT

## Glassy

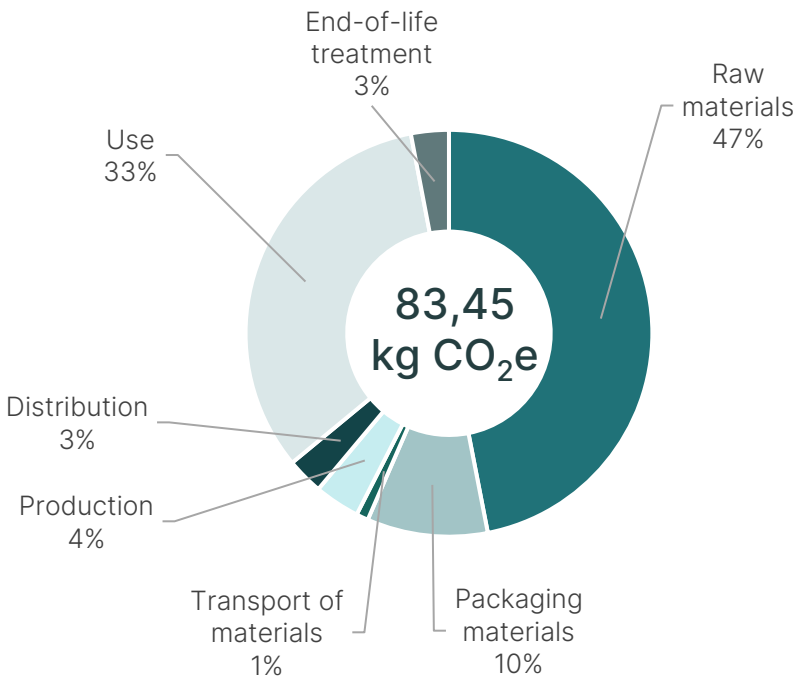

Mysoda examined the climate impact of its sparkling water maker Glassy. The emission inventory was conducted based on data from 2023 and in accordance with the GHG Protocol Product Standard.

The Cradle-to-grave boundary takes into account the entire life cycle from material acquisition to end-of-life disposal. Cradle-to-gate represents the emissions to the factory gate, but excludes distribution, use and end-of-life treatment.
